

# CRITERIA FOR AWARDING HUBERT GRANT SCHOLARSHIPS

## 1. OBJECTIVES

- *Expose young people to the problems affecting the world, especially those affecting nutrition, health, quality of life, and religion.*
- *Encourage their involvement in interventions which have hope of modifying those problems; and*
- *Provide exposure to mentors who may influence their vocational choices.*

## 2. TYPES OF PROJECTS

- International health care, curative and preventive
- Assisting hospitals in immunization campaigns.
- Conducting public health seminars.
- Providing student aid to hospital/medical personnel.
- Assisting with medical/dental clinics. (Many of these are conducted in rural areas, but in recent years have also been centered in the cities).
- Establishing nutritional rehabilitation centers (teaching how to prepare nutritional meals utilizing local food sources).
- Providing model agriculture projects such as
  - Grow Beds, Faith Gardens
  - SALT (Sloping Agriculture Land Techniques)
- Providing parent/family education workshops.
- Working with street children.
- Conducting arts and crafts workshops (focusing on design, quality control and marketing).

## 3. SUPERVISION

Each student should be supervised by an approved supervisor/mentor who will be chosen by the local mission/institution leadership. In most cases these persons would be medical missions personnel, mission administrators, field missionaries, and/or designated national leaders who are certified either by the local mission or the Baptist Medical/Dental Fellowship.

## 4. TIMETABLE

Most of these practicums would require two-six weeks for completion. Some, due to local circumstances and relationships would require two-four months. Specific calendaring would be coordinated by the Baptist Medical/Dental Fellowship working with the respective mission board, the local mission and/or institution, and national leadership.

## 5. PROJECT DESCRIPTION

Each student/grantee will submit a 500 word description of the project to the Baptist Medical/Dental Fellowship which addresses the following:

- Place
- Timetable
- Approximate cost
- Nature of project
- Supervision
- Why this project is important to you
- How this experience can/will expand your world awareness
- Why the project will enhance your personal and professional life

## 6. EVALUATION

Each student/grantee upon completion of the practicum will provide the Baptist Medical/Dental Fellowship a written report which will include answers to such questions as:

- What problems did you encounter? How would you correct them?
- What are needs/issues which could be addressed?
- What did you learn?
- How do you see this experience affecting/changing your life?
- What have you learned that can be transferred back to the U.S.?
- What is the significance and probable impact of the project?

## 7. GRANT AWARD

The BMDF Staff and Scholarship Committee will review the project proposal and determine the amount of the grant to be given based on the merits of the proposal.

If proposed grant is approved, I agreed to abide by the criteria and conditions of the grant and further agree to follow-through with the actions set forth in this proposal.
