We have hundreds upon hundreds of children in the village of Sweetwaters who need these exams. In this area there are many child-headed households. Many adults are dying from Aids leaving children uncared for. Many have had numerous ruptured ear drums due to infections not being treated. The area is still entrenched in ancestor worship even though they know the name of Jesus. Please come if you are willing to be patient and love on children, encourage adults and be a witness by what you do!
