Medical Missions Response

May 1-7

Dentist and Assistant needed

MMR works among least reached people groups in restricted access areas at the request of field personnel. We have several upcoming needs that we wanted to make you aware of. Because of the areas where we work, security is very high. You can see some information on projects at www.mmronline.org, but you will need to contact us for the best, most up-to-date information.

URGENT

Date: In country dates are May 1-7. You would need to depart a few days before and likely return on the 8th.

Strategy: This team has used dental clinics in their area very well to create opportunities. The team has requested another dental team that can help them open doors. The team that was coming during this time frame can not make it and a replacement team is needed.

For more information, email Medical Missions Response at info@mmronline.org or call 866-667-8996.

OPPORTUNITIES to Serve Also Include -

DENTISTS: MMR continues to have more and more dental requests while our list of dentists willing to work in many of these areas has not grown. We are looking for dentists that can work in Northern Africa, the Middle East, South Asia, and East Asia for two week to 10 day time frames any time starting this Summer through November. The projects can be flexible based on when you can come. We also have several dental students that would like to join with a team in the Summer.

EYE REQUESTS: We have a need for two different projects that have requested cataract surgeries. Both areas are in North Africa. If you have interest in these projects, please contact us.

These projects are high priority to the field personnel requesting them. Both areas can take a team based on your availability. We will work with you to accomplish these projects.

MEDICAL CLINICS: As always, these are the heart and soul of our projects. Due to many issues of sending agency restructuring and the like, most of the clinical projects that are requested of us will be in the Fall of this year. This fact will put a strain on our normal volume during this time. We will need more personnel than any previous year during this period.

We need many doctors, nurse practitioners, physician assistants, nurses, EMTs, and others willing to participate on small medical teams for two weeks to 10 days all across parts of Northern Africa, the Middle East, South Asia, and East Asia.

All of these projects provide field personnel and national partners opportunities to make disciples and plant churches. We would like to provide a team for each requested project. Each one is a chance to see the Kingdom advance in areas where there is little to no witness.

Please be a part of helping field personnel move forward in their strategies and work in sharing Christ with those that have not heard.

We are here to serve you, so ask questions and let us know of your interest.

For all projects, contact us at info@mmronline.org or call toll free at 866-667-8996.

**Thanks,
Medical Missions Response**
