

## **Nigeria**

**June 18-July 3, 2010**

**Need: Various medical professionals**

---

The team going to Nigeria June 18- July 3, 2010 will be working with Pro Health International. They gave a great website at [www.prohealthinternational.info](http://www.prohealthinternational.info)

That gives a good insight to their process. This will be our 6<sup>th</sup> team to work with them. We work in the Taraba State and will be serving very poor and underserved patients. The local pastors work with the evangelism team from Pro Health to share the Good News as well as the doctors who pray with every patient and there are hundreds each day! The Nigerian Christians are joyful and exuberant in their practice. We start each morning with songs of praise and words of encouragement from them. Registration is through the GHO website at [www.cmda.org](http://www.cmda.org). Select Missions, then Global Health Outreach then Team Calendar. I am always available for questions via cell 541-805-5232.
